

Corporate Internal and Executive Coach

Program title: Corporate Internal and Executive Coach

Specialization: Institute of Management

Program instructor: Sándor Takács, PhD

Program language: English

Program time in semesters: 2 semesters

We deliver our training program online using videoconferencing platforms.

THE AIM OF THE PROGRAM:

is to help internal coaches, HR professionals and top managers to develop their coaching competencies that they can apply in their day-to-day work to support their colleagues and clients to achieve their goals and find their own solutions.

The program – which is developed and delivered in cooperation with the Business Coach Ltd.* – fully complies with International Coaching Federation (ICF) standards to guarantee high levels of professionalism. This is a unique program as graduates receive both university certificate and also an ACTP (accredited coach training program) certificate on coach training as a precondition to ICF credentialing. This ACTP accredited program is an “all inclusive” training program, including mentor coaching and a performance evaluation process. Graduates of the program may apply for an individual ICF Credential (ACC or PCC) via the ACTP credential application path.

If your mission is to help others grow, and fulfill their true potential, this program provides you with the necessary coaching competencies and a comprehensive toolkit.

OUR PROGRAM IS PERFECT FOR YOU IF YOU WANT TO

- ▶ become a more successful leader in your organization using your coaching skills
- ▶ start a career as a professional coach and prepare for your ICF credentialing
- ▶ become a more effective HR professional
- ▶ become an internal coach in your company.

PARTICIPANTS OF THIS TRAINING PROGRAM WILL LEARN ABOUT:

- ▶ the elements and stages of the SPARKLE framework,
- ▶ contemporary leadership and organizational development models,
- ▶ coaching methods and tools, tips and tricks,
- ▶ how to use action-oriented methods online,
- ▶ ICF ethical standards and marketing guidelines.

The program consists of 30% theory and 70% practice. Practical exercises will be delivered in pairs, small teams or triads (coach-coachee-observer) and include the opportunity to observe live coaching sessions with real clients in a safe and friendly atmosphere. Participants will develop their coaching mindset: building trust and safety, presence, active listening, evoking awareness and facilitating client growth. Our regular practices – feedback, self-reflection and mentor coaching – all help them to grow as a coach. Finally, they will also learn about marketing and self-branding to be able to promote themselves and grow their business.

Tuition fees: 3 500 EUR / semester

Application deadline: 15 January 2022
